C20

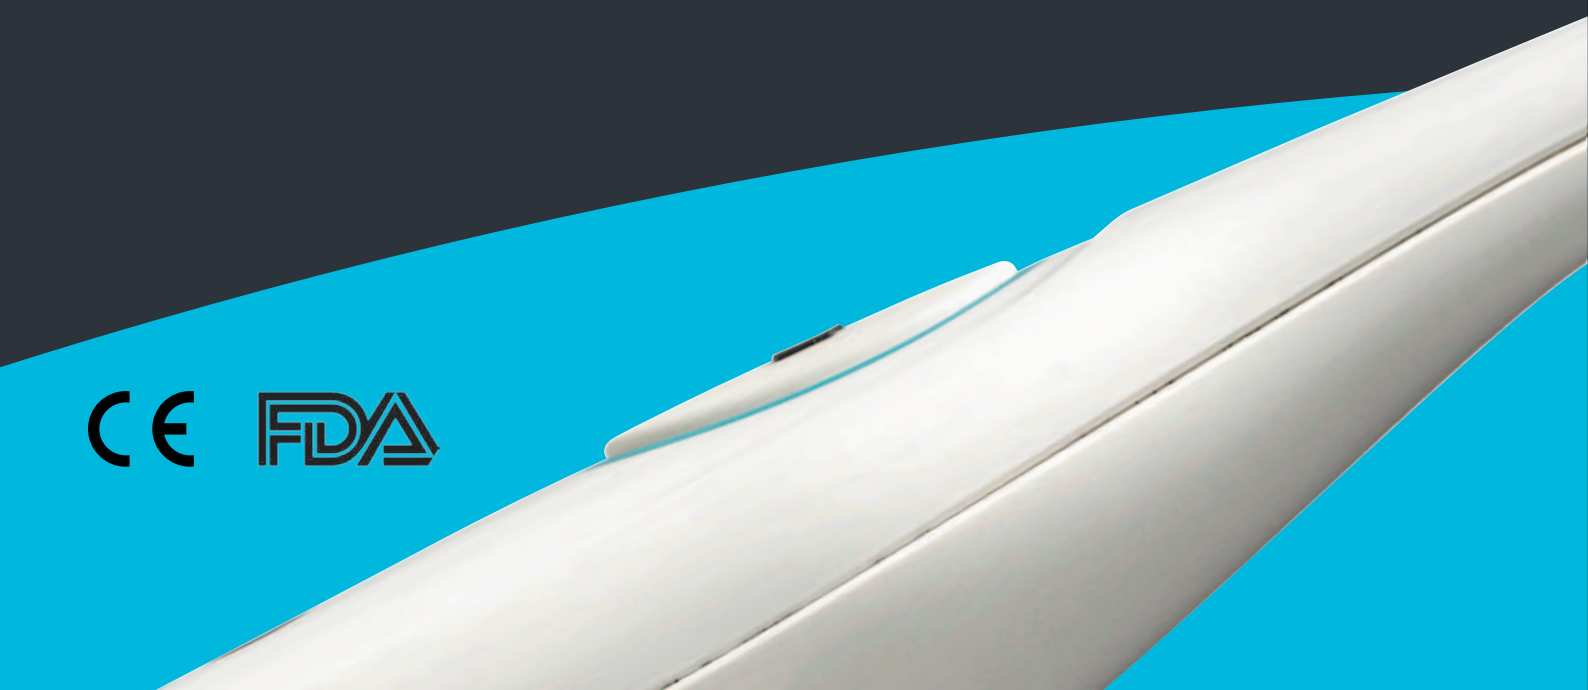
Easy to use. Easy to master.

ACTEON®, as global leader in the dental and imaging industry, we have been supporting practitioners for over 20 years with innovative solutions tailored to their needs. With thousands of intraoral cameras sold worldwide, ACTEON® is a trusted name in the field, recognized for its expertise and commitment to quality.

Proudly made in Europe, our new C20 intraoral camera adheres to the highest standards of safety and reliability.

MADE IN EUROPE



More than just a tool, The C20 enhances the diagnostic process by creating an engaging and interactive experience for both the dental team and their patients.

By streamlining communication and boosting chairside efficiency, the C20 helps transform practices into high-performing, patient focused environments.

Join the game,
And optimize your time.

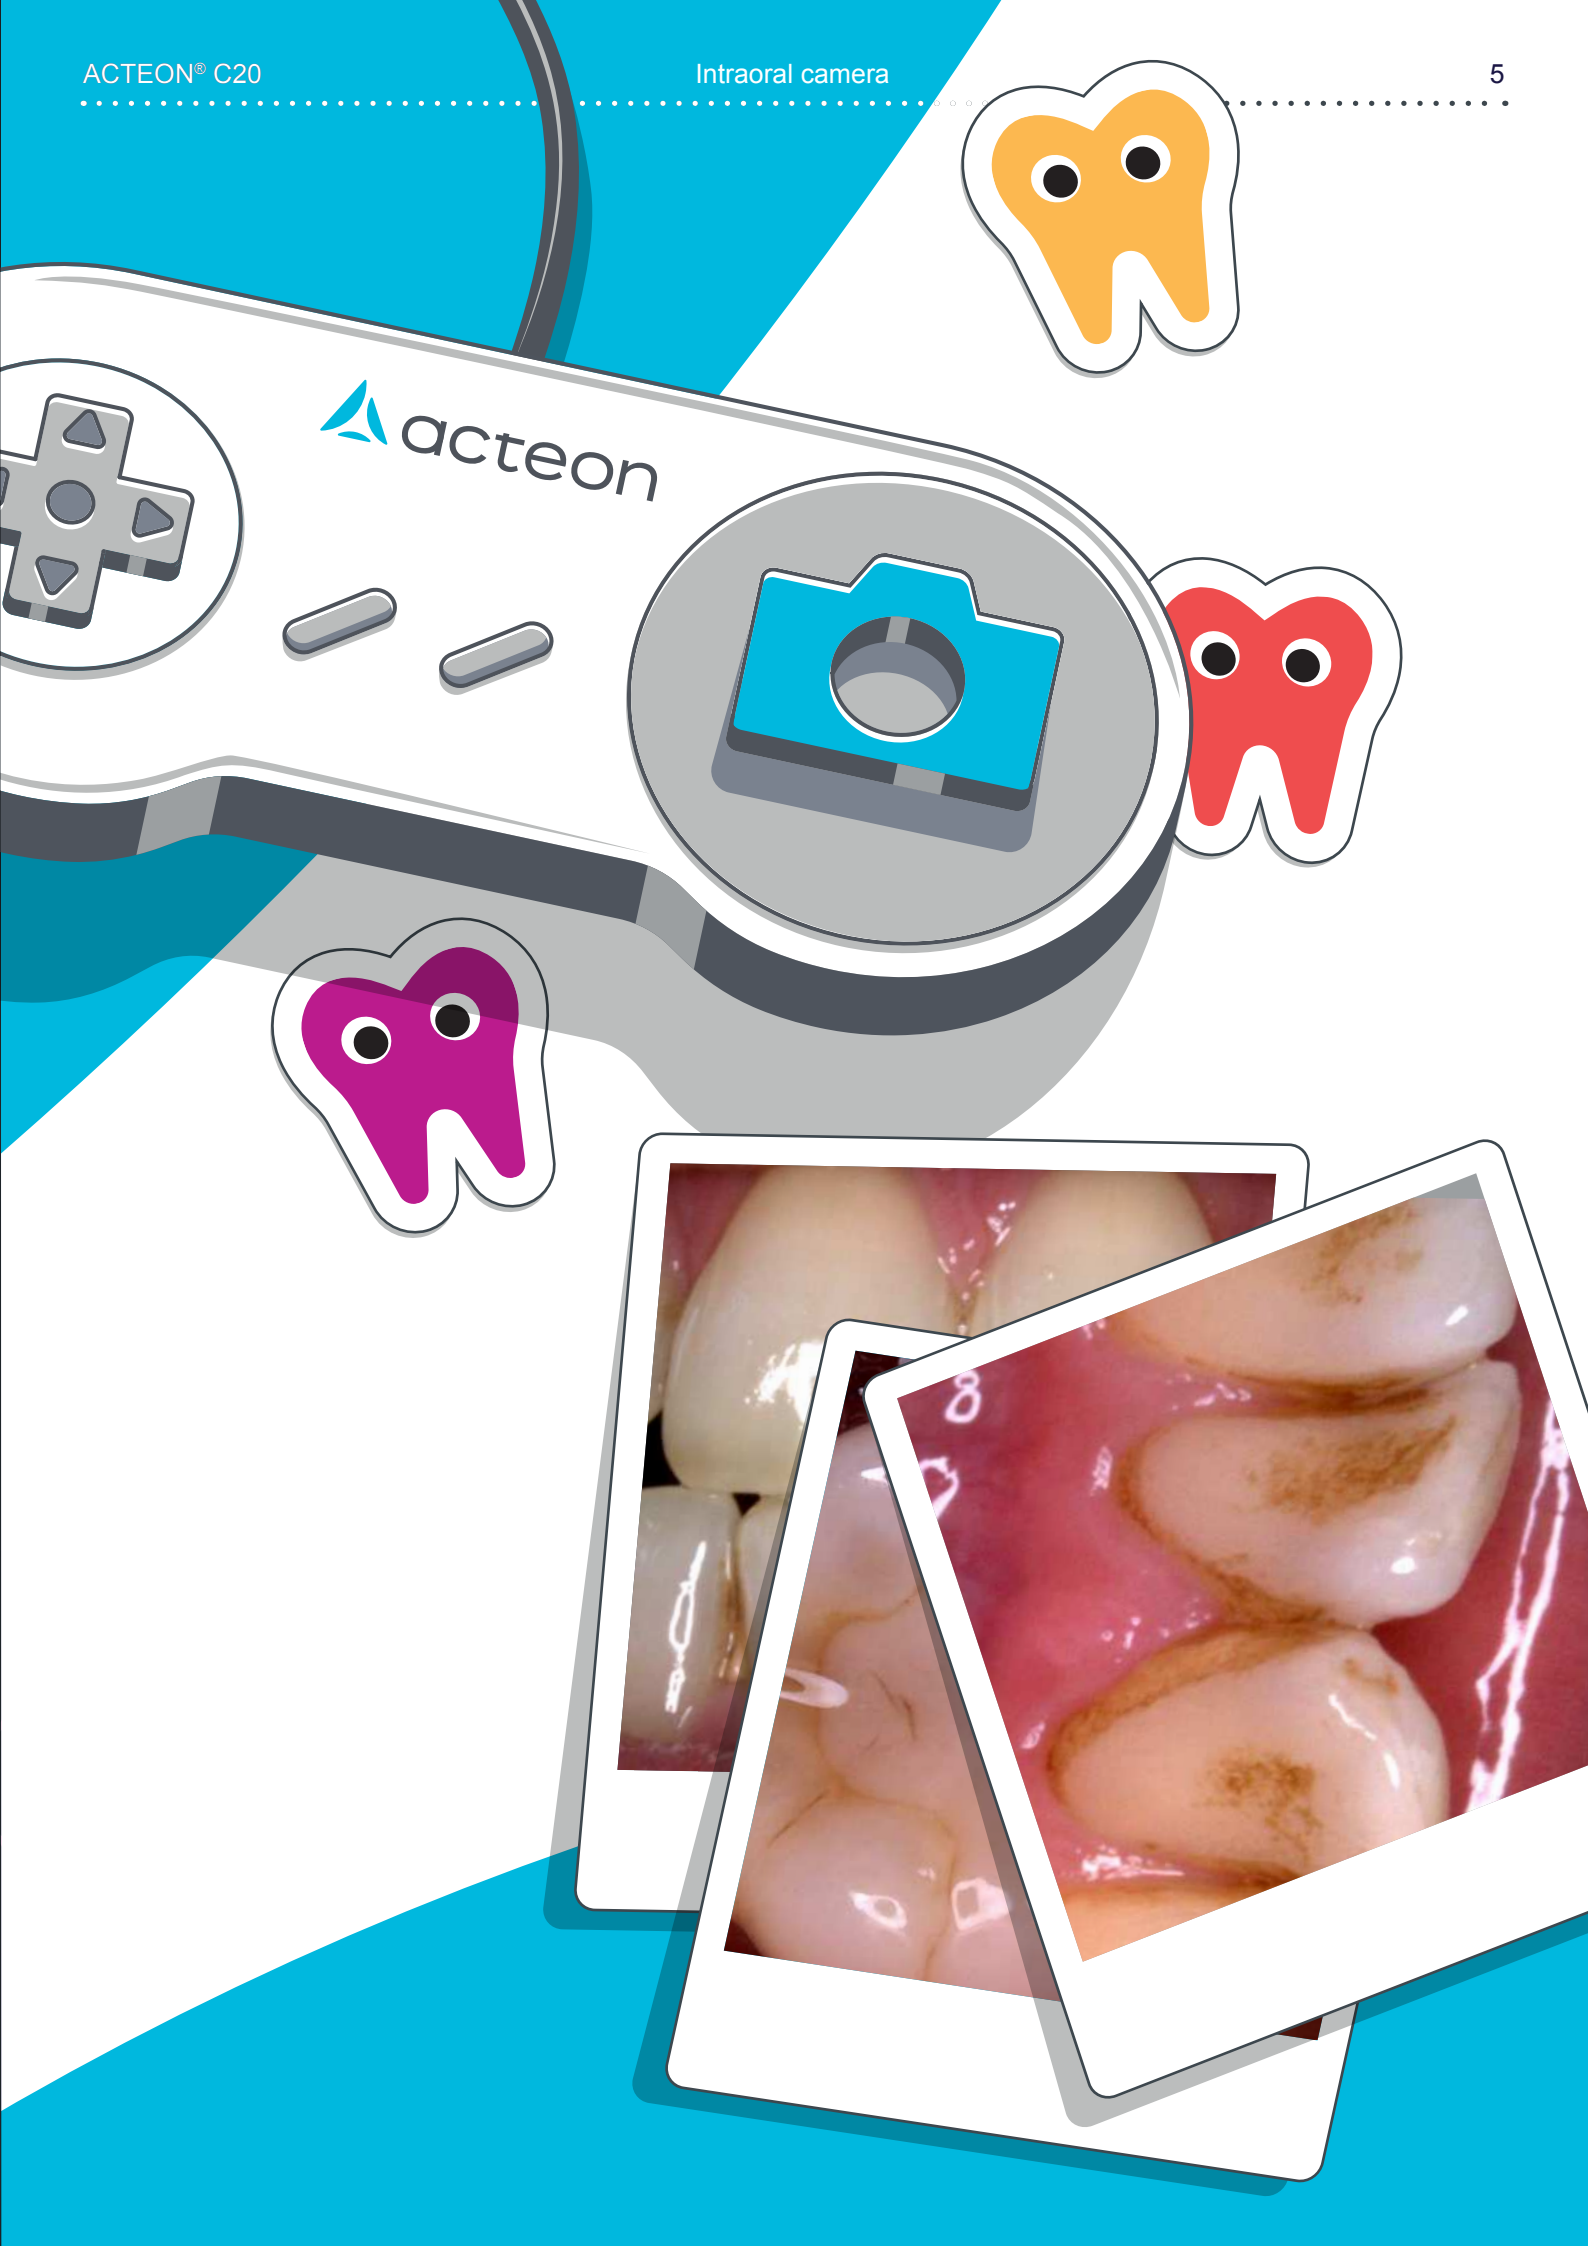
Seamlessly navigate the patient's mouth. **Our tools enable easy diagnosis, treatment planning, and patient communication, two-way interactive care.**

Quick to learn, any team member can operate the camera with ease.

Bright Halo
Provides a soft, uniform light around the teeth, ensuring exceptional clarity and visibility for precise diagnostics and detailed imaging.

Fog light
Prevents lens condensation during use, ensuring clear, uninterrupted visuals of the teeth for accurate diagnostics and consistent image quality.

Automatic flipping
Ensures the image is always correctly oriented, whether capturing maxillary or mandibular views, providing seamless and intuitive imaging without manual adjustments.



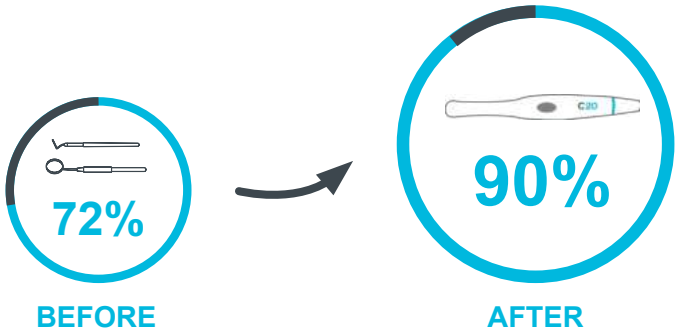
acteon

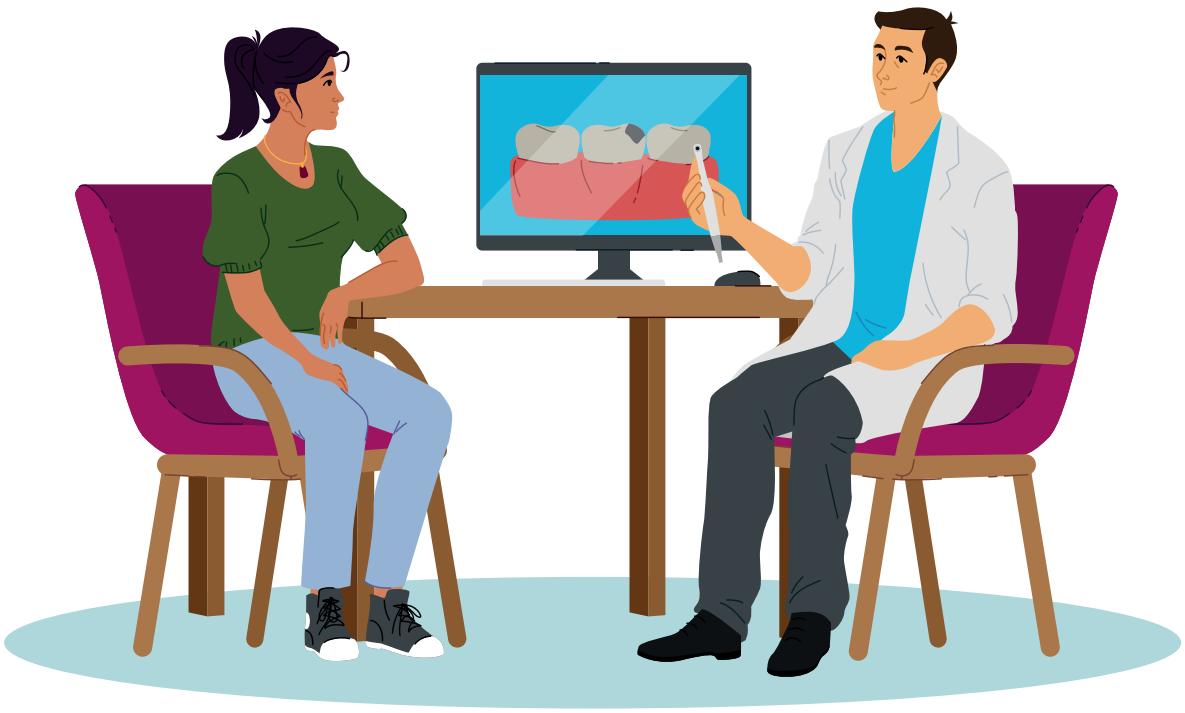
Level up your practice,
And boost patient acceptance rate.

High-quality full HD image to help your patients understand their oral health and encourage two way communication that **boosts treatment acceptance rates**.

Highlight before-and-after images to increase your patients understand and build trust.

A **25% growth** was observed by Dr William W. Oakes, and published in an article challenging preconceptions that even if patients have full confidence in their dentist, the use of an intraoral camera significantly improves the acceptance rate.





Oakes W. What do you mean you don't need an intraoral camera? Available at: http://www.dentaleconomics.com/articles/ print/volume-87/issue-1/features/what-do-you-mean-you-dont-need-an-intraoral-camera.html. Accessed March 2, 2017.

Press start,
And Go.

The C20 offers a **plug-and-play experience**, making it **straightforward** to install in any dental office. Its **intuitive design** ensures that users can start capturing and managing images immediatly, enhancing workflow without any disruption.
